

# 4081.2 1-inch Standard Ball Clamp Mark II

**Bolded items included in package**

This Standard Clamp attaches two (2) 1-inch diameter balls. The Clamp plates are spring-loaded for easy assembly and breakdown of your arm system. The Wing Nut allows for easy one-handed operation and can be easily loosened or tightened to adjust arm strength.

Works with 1-inch ball arms from Ikelite, TLC, Ultralight, Nauticam, and others.

Old and new Ikelite 1-inch balls and clamps are interchangeable. For the best performance, we recommend combining like components within a single clamp. Ball components with an o-ring groove should have an o-ring installed at all times.

## Limited Warranty

This Ikelite product is warranted against any manufacturing defects for a period of one (1) year from the original date of purchase. Defective products should be returned to Ikelite postage paid. Ikelite will, at its sole discretion, repair or replace such products, and will return to customer postage paid. All other claims of any nature are not covered. Except as mentioned above, no other warranty expressed or implied applies to this Ikelite product.
