Base + Hardware for DSLR Housing

This product comes with the necessary hardware to attach the included Base to any Ikelite Housing, or any Non-Ikelite housing with a single 1/4-20 tripod mount. The combination of hardware components required is dictated by the mounting points on the housing. Use the information below to determine which combination and assembly order is required for your housing.

MOUNTING POINT REQUIREMENTS (assemble in order shown)

- Use matching hardware in plastic sealed bags for your Mount Type
- 1/8 inch Hex Head Wrench included to attach Base Extension to Base

Mounts with 1/4-20 thread and 3.5 inch (89 mm) spacing
